

Supplemental Fig. S5

Supplemental Fig. S5: Full visualized membrane of each Western Blotting experiment

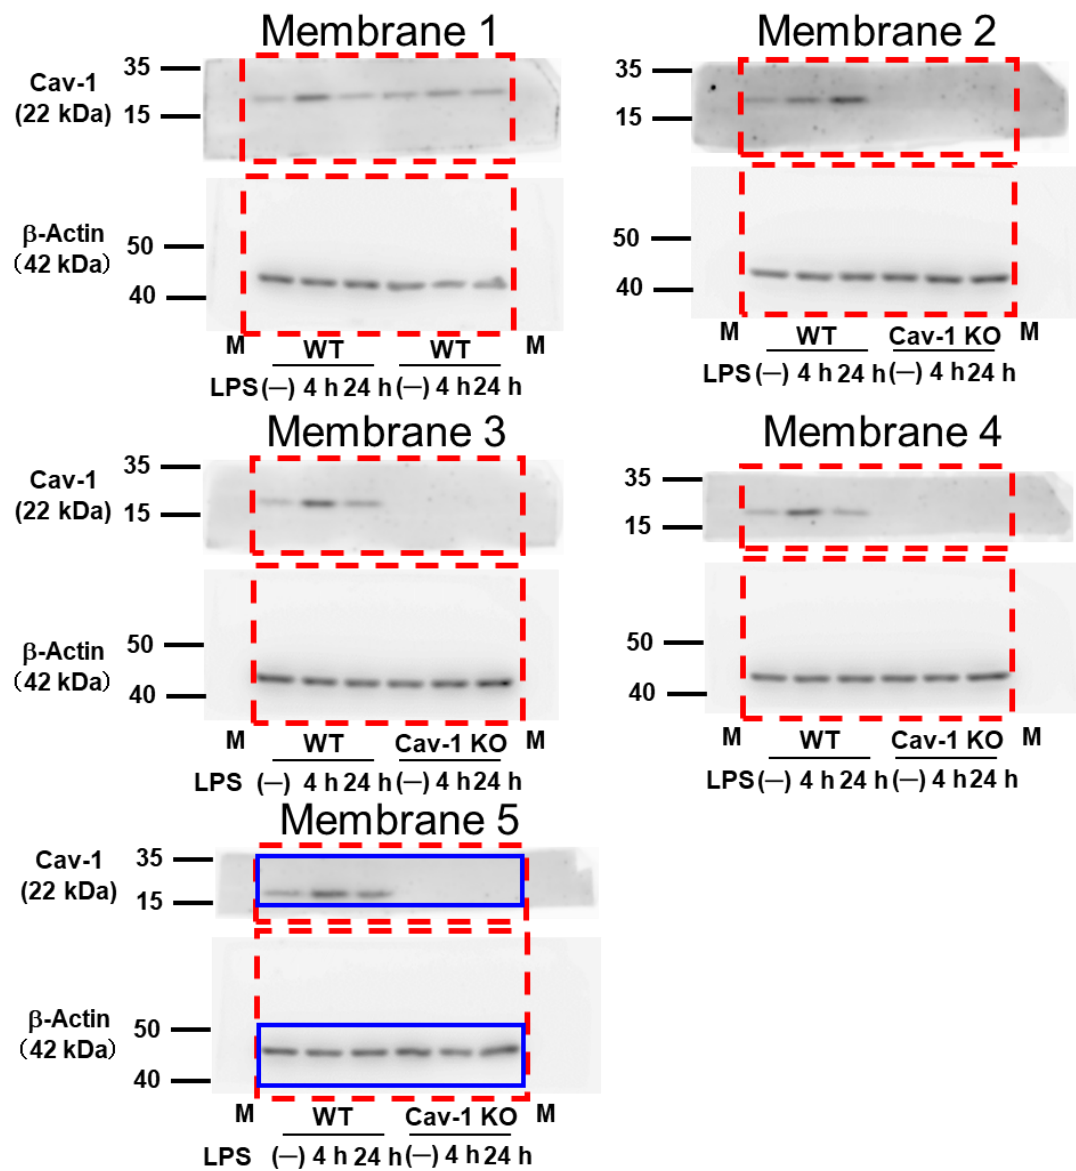

Full visualized membranes of western blotting are provided below (A-D).

M: protein ladder marker, WT: wildtype, KO: Cav-1 KO, x: Unrelated sample for the analysis

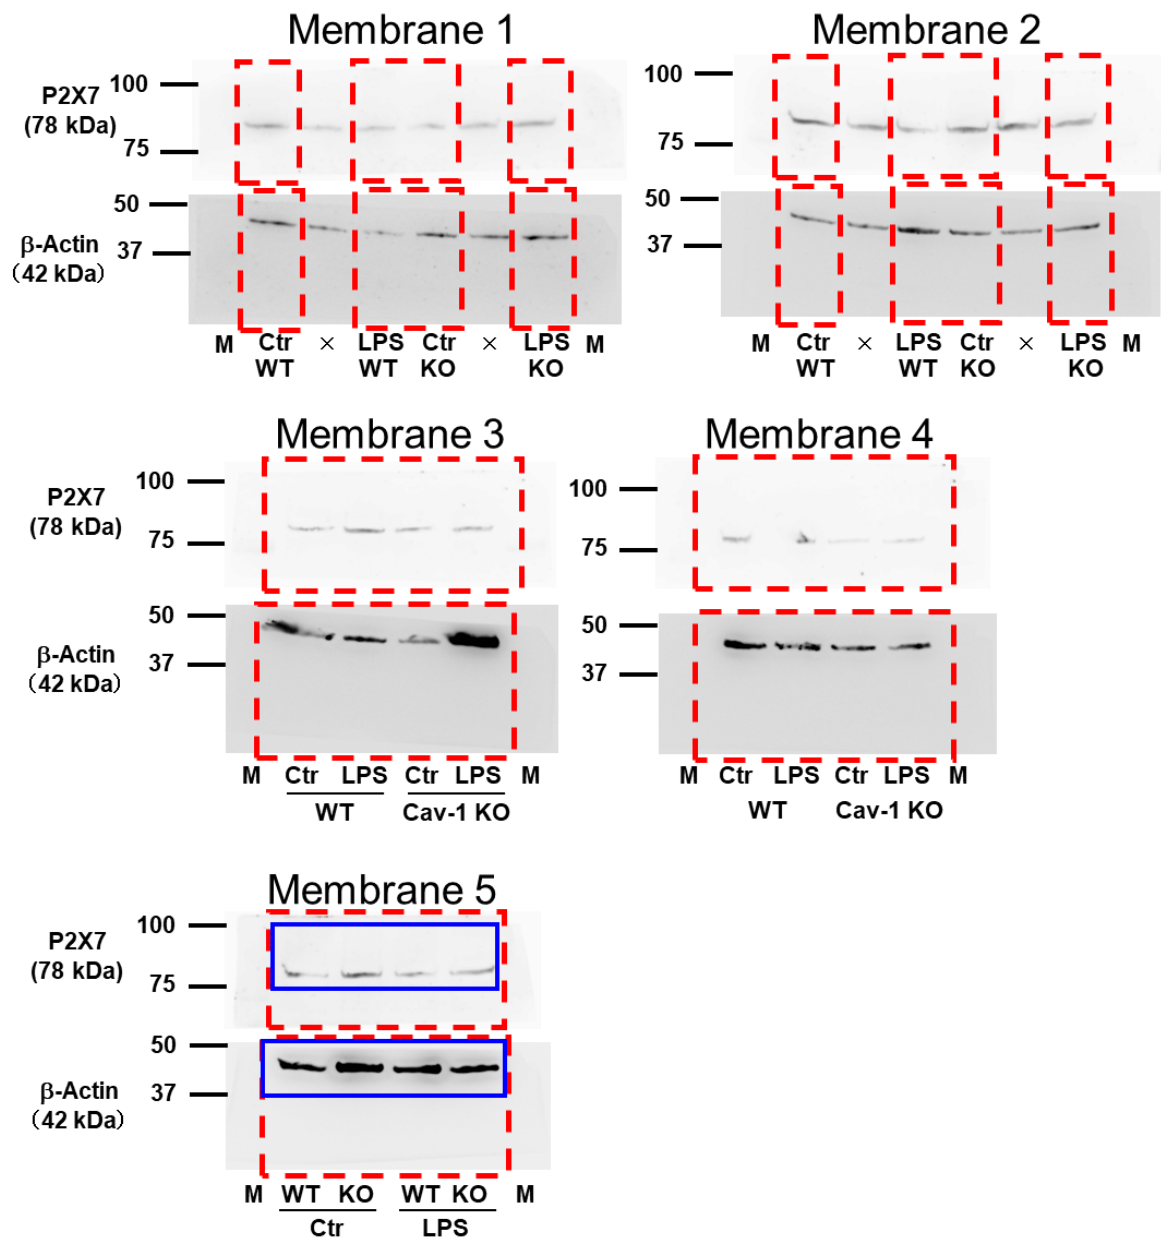

A. Figure.1B (P2X7 receptor protein expression)

B. Figure.3B (Cav-1 protein expression)

C. Figure.3C (P2X7 receptor protein expression)

D. Figure.9D (GSDMD expression and cleavage)
